Allowable Subject Matter

Claims 27 and 30-52 are allowed.

The following is an examiner's statement of reasons for allowance: Farquhar et al (U.S. Patent No. 6,779,840) teach a head restraint similar in structure to and acts and functions the same way as the present invention which also includes a guide sleeve extending through the upper cross member of the vehicle. Malsch et al (U.S. Patent Application Publication No. 2004/0124686 A1) teaches a head restraint similar in structure to and acts and functions the same way as the present invention which also includes a guide sleeve extending through the upper cross member of the vehicle and also includes an impact device that varies in length in response to the application of force. And therefore would be a 102 rejection. However, both references have insufficient dates to be used as a 102 or in a 103 rejection.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rodney B. White whose telephone number is (703) 308-2276.
